Will Free World Realize Its Danger In Time?

The people of this nation must feel that the end of the shooting war in Indo-China bears many marks of similarity to the cease-fire brought about in Korea. There can be no doubt that in each case a victory for Red aggression resulted.

Most American leaders take a dim view of the Indo-China settlement and there is little doubt that the huge concessions made by the French, aided and abetted by England and some of our other allies, means a serious case of "loss of face" for the Western World in Asia and loss of influence elsewhere.

Most of our clear-minded leaders in this country are expressing thought that regardless of what may be done about a Southeast Asia mutual defense pact, or the final fate of the European Defense Community arrangement to which some of our allies, particularly France, are so far failing to give proper support, the United States must push for an early rearmament of Western Germany and recognition of that country's sovereignty.

Despite their failure to win their ultimate goals in both Korea and Indo-China, the Communists have ended both struggles in control of substantial new parts of important areas. Moreover, the "peace" is regarded, at best, as temporary, and, at worst, as the invitation to further aggression.

Certainly, the cessation of hostilities affords a respite from death and agony. However, it must not be construed as an encouragement to cease our efforts to prepare for further episodes of the same character. Inevitably, the question arises, "What next?" Where will the Reds seek to stir up further unrest with a view to

armed hostilities? Will it be in North Africa? Will it be another section of Asia Northern India, Indonesia, or Hong Kong?

The record of the Western allies in repelling aggression and subversion by the Communist world has been of a halting and hesitating nature. The United States has been afforded small help in efforts to stop this constant underhand Red grasping for more power.

Perhaps what has happened in Indo-China may awaken England, France, Italy, Western Germany, Spain and others friendly to the ideas of the Free World, to the necessity of a more active alliance for their own common interests.

Certainly it is to be hoped that the nations which our own country have been seeking to warn of their danger, will come to realize that what we have been telling them is for their own salvation.

Materials Are Here

For years Americans have been told this nation had to spend billions of dollars on foreign give-away programs because we were dependent upon other countries for strategic minerals needed for our own defense.

A year ago the Senate authorized a committee investigation and study of the "accessibility of critical raw materials to the United States in time of war."

The Senate committee recently made its report, showing that within the limits of the Western Hemisphere can be found every one of the 77 minerals and materials in sufficient supply to meet all the needs of the United States in time of war.

Oddity Almanac Fact, Fancies

NEW YORK (AP)—Facts, fancies, figures from oddity almanac.

Do you know how often your heart beats? If you live the Biblical span of 70 years, it will pulse between two and three billion times. The encyclopedias are chary of saying how often the average human heart beats. They don't want to worry you, but mine checks 75 when I am not worried, and 100 plus when the boss is looking. But they will tell you that a horse's heart beats 30 times a minute, these are the ones I bet and lose on; and a mouse races his pumper 500 to 1,000 times every 60 seconds.

Names not only make news they also make you wonder. The town of Snackover, Ark., for example, came from the French term, Chemin Couvert, meaning covered road, and I can't find out why. The authorities all agree on Snackover, but nobody I know claims to know how Wham, La., got its punch. Business firms are easier to trace. The Rugerotters, a major hand-woven rug company now in Puerto Rico, migrated from North Carolina, where its weavers still held to the old Scottish word "croft," meaning a small farm.

You probably never bothered to think about how the great Shell Oil Co. got its tag. Well, back in the 1830s it was a small general trading company that, among other things, earned a fast buck by importing sea shells from the Orient to make mother of pearl. Then it stumbled into oil, and quit worrying about the button market.

But suppose it had adopted the title, "Mother of Pearl, Inc.," and then had to go into the world market peddling gasoline? An industrial outfit can, of course, change its corporate name to meet the purposes of its life. But a child is more reluctant to turn upon its parents, and this is why every parent should give a child at least four names at birth, so that later in life it can have a choice if it feels it needs it.

The almanac editorial: Last winter, as usual, we warned our readers against the spreading prevalence of the common cold, which year after year begins more and more to resemble "virus X," an ailment of people who, for personal reasons, prefer to catch an uncommon cold.

Now we summon our subscribers to a concerted attack on ragweed, which many of our friends

say causes them to suffer from hay fever, a disease they say is an allergy.

Personally, we think that a guy who gets a common cold in the winter, and insists on calling it "virus X," is naturally subject to hay fever, which we ourselves believe is a summer cold. But you can't deny a friend the pleasure of making his own malady mysterious.

So do your neighbors a good turn. Attack and destroy ragweed, root, stalk and pollen wherever it leers a green head. There is no market for the stuff anyway.

Editors Note: This issue of the oddities almanac is skipping its usual science department notes because the man assigned to this field took a new wonder drug and, as we go to press, is still too sick to describe its benefits.

Almanac quotes to live a life by: "Does his own fatal passion become to each man his god?—Virgil.

"Success is the child of audacity"—Disraeli.

Almanac long-range weather forecast: Hot air storms, spreading across entire country and reaching a peak just before autumn elections; followed by cooling showers.

The Attack On Styles Bridges

"The Reporter," a magazine owned and edited by Max Ascoli, who arrived in this country sometime in 1931 on a grant-in-aid from the Rockefeller Foundation, has published an astonishing article on Senator Styles Bridges. This issue of "The Reporter" boasts 40 pages of copy; the article on Senator Bridges consumes 14 pages which is a big slice of any publication.

Perhaps Bridges deserves 35 percent of this issue of this magazine, but when it was discovered that for some reason the state of New Hampshire was blanketed with copies, one wonders what was the interest and who spent the money for the free distribution. True, Styles Bridges is a candidate this year for re-election to the United States Senate of which he is president pro tempore, a high office, fourth in succession for the presidency. As it is expected that the Republicans will renominate him and that his re-election is assured, one wonders why all this excitement, particularly as the article is altogether uncomplimentary.

Apparently, Styles Bridges' greatest crime, according to "The Reporter," is:

"... a lonely Republican internationalist before the outbreak of the second World War, he has in the main voted silently for the major postwar foreign-policy programs while at the same time endorsing nearly every crippling amendment dreamed up by such senators as Kenn, Jenner, Dirksen, Welker — and by himself.

He has regularly voiced deep discontent with some of America's allies in Europe, but has pledged undying support to the exiled government of Chiang Kai-shek.

Who does not voice discontent with some of America's allies in Europe? Methinks I have heard something of the sort recently from President Eisenhower, Vice President Nixon, Secretary of State Dulles, and Majority Leader Knowland. If it is a crime to ask why France has delayed ratifying the EDC treaty, if it is a crime to object to seating Red China in the United Nations, then our highest officials have committed the same crime that Styles Bridges has. One wonders, if it is so wrong to support "the exiled government of Chiang Kai-shek," does "The Reporter" want the United States to take to its bosom the Communist government of Mao Tse-tung? Do the editors of this publication expect an American, such as Styles Bridges is, to support Communists anywhere? If so, why should he when their armies intervened in the Korean war to murder our sons?

Styles Bridges has been a tower of strength to the Republicans in the Senate, particularly after the death of Robert A. Taft, because his personality is such that he has often been able to quiet down the quarrelling factions and personalities in the party. It is no secret that he has played this useful role. "The Reporter" article describes this in the following language:

"Probably the main reason for the obscure character that Bridges has retained during his many years in the Senate lies in the nature of the specialized political field in which he has achieved his greatest eminence. The reputé of a manipulator of political influence is not susceptible to standard publicity gimmicks. Such a man must pursue hidden paths, conduct his negotiations in inner rooms, speak in the halftones of suasion and threat."

From this introduction to Bridges' faulty thinking, the article proceeds in minute detail to

By George Sokolsky

discuss all of the favors that this senator may or may not have done for constituents or citizens for whom he may have intervened. Some are important and interesting; some are trivial. I should like to devote what space remains to me to refer to Chapter VIII of the article, entitled "China Lobby, New Hampshire Div."

Of course, there is no China lobby. Alfred Kohlberg, an American merchant and manufacturer who loves China, started this nonsense by denominating himself "The China Lobby" and demanding that he be investigated which no one does because Kohlberg spends his own money fighting Communism. He is also president of the American-Jewish League Against Communism, to which he contributes abundantly.

It so happens that Senator Bridges opposes Communism in China as anywhere else and Bridges as he does everyone who opposes Communism.

"The Reporter" says:

"Over the years since the second World War, Senator Bridges has developed with increasing fervor the theme of treason at home as an explanation for disaster in Asia..."

Mae West Opens Show At Age 60

LAS VEGAS, Nev. (AP) — Mae West opened a two-week stand at the Sahara Hotel last night, selling the same kind of sexy entertainment that launched her career 30 years ago.

She appeared with half a dozen muscle men, including Dick DuBois, Mr. America of 1954, and a large crowd seemed to like what it got. This consisted of double-entendre dialogue and some songs, notably "Frankie and Johnnie," which Diamond Lil sang with DuBois.

The 60-year-old Miss West wore a black sequined gown which fully covered the bosom but left bare a not-too-trim midriff.

Diet and Health

By HERMAN N. BUNDESEN  
Insomnia is one of our most common complaints, for most of us have been unable to sleep at one time or another.

There are three types of insomnia: an inability to fall asleep upon retiring; frequent or extended awakening during the course of the night; or waking before sufficient hours of sleep have been obtained.

Requirements Vary

The amount of sleep a person needs is determined by age, occupation, activity, temperament and general physical condition. Everyone has individual sleep requirements. The traditional eight hours are needed for most, seven hours are sufficient for some, and more than eight are essential for still others.

People who have been denied proper sleep may have inner tensions and irritability. They may even develop a mental situation in which they misinterpret their environment or the people around them.

Emotional Causes

Most cases of insomnia are due to emotional disturbances. Other factors are excessive cold, heat, hunger, thirst, itching and pain. Constipation or a specific disease can be at fault.

A physician should be consulted in an effort to clear up the physical or mental disturbance. Then other remedies may be tried. These include making the bed more comfortable, frequent changes of linen, a dark room, good ventilation, absence of noise, a warm bath or something warm to drink before retiring.

Sedatives may have to be used in certain instances. They do tend to become habit-forming, however, and should not be taken

Cure for Insomnia Not Always Simple

consistently. The underlying cause for the difficulty should be determined and treated.

QUESTION AND ANSWER

S. V.: Is there any way a person can determine if he has had mumps?

Answer: A new skin test to test mumps immunity is now available. A little bit of the serum is injected underneath the skin and if a red spot occurs within 24 hours, it means the person is immune to mumps.

Highway Cops Have Troubles

CANTON (AP)—State highway patrolmen and Stark County deputies had one of their darker moments the other night.

The deputies were making safety checks of automobiles on Lake Cable Road and had stopped a car for having improper headlights.

Suddenly one of the deputies noticed a headlight on his patrol car had burned out.

Minutes later, a state highway patrolman halted his patrol car to see if he could be of any help.

When he drove away, deputies noticed the tail lights were not lit on the state patrol car.

Survey Shows Eisenhower Gaining

By George Sokolsky

WASHINGTON — President Eisenhower is more popular today with the convention delegates who nominated him at Chicago than he was in those politically steaming days of July, 1952, according to a canvass of the 1,206 convention delegates by the enterprising Knight newspapers.

Ike says that, amidst his swarm of domestic and foreign headaches, it is the most cheering news he has heard in a long time.

If the Republican convention were held today, according to the Knight survey, Eisenhower would receive 892 of the total vote. On the ballot which nominated him at Chicago, he got only 845 votes, despite the bandwagon rush by go-getting politicians and also-ran candidates.

The Knight poll has many other interesting aspects. Only 16 of the delegates who voted for Ike at the convention would not vote for him now. The reasons given for their defection are (1) Ike's failure to back up Sen. Joe McCarthy, (2) the Benson farm program for lower price supports, and (3) the Supreme Court's decision against segregation in the public schools.

POLICIES — However, the Knight report continues, these same policies have converted to Ike more delegates than they

lost. Here are a few illuminating excerpts from this canvass, as reported by Charles B. Cleveland in the Knight newspapers:

"The poll indicated that Senator Taft, had he lived, would still have strong backing. (Ed. note — Many of Ike's difficulties with the conservative, nationalistic, McCarthy faction on Capitol Hill might have been avoided, if Taft were now the Senate majority leader.)

"But with Taft's death, Ike has won over a majority of his followers. (Ed. note—With certain qualifications, for the Taft senators are giving Ike most of his political headaches."

OPPOSED — "About one-fourth of the delegates," Mr. Cleveland reports, "indicated that they still did not like Ike. It is reported that 151 either replied that they would vote for another candidate or rated Ike as only a fair or poor President."

"Sen. Everett M. Dirksen of Illinois was the outstanding favorite of the delegates who did not support Mr. Eisenhower. (Ed. note—Dirksen was a Taft man at the convention, and his platform denunciation of Gov. Thomas E. Dewey, Eisenhower's behind-the-scenes floor manager, caused a minor sensation. Dirksen is extremely pro-McCarthy.

"A number who indicated that

they would not vote for Ike still said that they thought he was doing a good job. In all, 80 per cent of the delegates rated Ike as doing a good or excellent job."

McCarthy—And now, here is the payoff problem—Sen. Joe McCarthy's effect on Eisenhower and party fortunes:

"One fifth of the delegates," the survey says, "believe Senator McCarthy has helped the Republican party and its chances of victory in November. More than half of those favoring McCarthy came from the Midwest.

"Nearly twice as many delegates—40 per cent—believe McCarthy has hurt the GOP.

"The poll also showed that an overwhelming majority of the delegates want to return to Chicago for the 1956 convention.

"As to whether Senator McCarthy has helped, hurt or had no effect on the Republican party and its chances of victory, this fall, the delegates questioned voted:

"Helped—132; hurt — 245; no effect—229."

One fact develops from this enlightening survey, and it is that McCarthy is still a political power. Any man who commands one-fifth of the party's convention delegates cannot be brushed off. They represent votes.

Newly Idled List Showing Decline

COLUMBUS (AP)—Claimants newly unemployed totaled 13,030 for the week ending July 24, a drop of 1,091 under the previous week, the state bureau of unemployment compensation reports.

The bureau also reported the total of claimants unemployed one week or more at 96,593 for the week ending July 24, compared to 96,917 the previous week.

Those totals, however, do not include those persons who have exhausted their maximum unemployment payments and still may be unemployed.

Small increases in new claimants were reported in the Cincinnati and Toledo areas, and decreases in the Akron, Canton, Cleveland, Columbus, Dayton and Youngstown areas.

# Rotary To Hear Discussion On Public Schools

Fred. J. Milligan  
Secretary of Ohio  
Committee Speaks

Rotary Club members and guests at next Tuesday's club luncheon at the Country Club will have the opportunity of hearing a very important discussion on the public school situation.

Fred J. Milligan

The speaker is to be Fred J. Milligan of Columbus, secretary and counsel for the Committee on Ohio Schools, which is busy gathering information about the situation in this state.

MILLIGAN is a former Ohio Director of Commerce and a former assistant to the attorney general of Ohio. He is a practicing attorney in Columbus and at present also is a trustee of the Ohio Historical Society.

He is known to many citizens of Fayette County and has been engaged in many interests, among them being a former president of the Central Ohio Area Council of the Boy Scouts of America.

While here he will discuss school standards for both teachers and pupils. This is a timely topic because there promises to be considerable controversy in the next session of the Ohio General Assembly over what minimum courses of study shall be required in the public schools. If the law is changed the schools of this city and county may be affected.

The Ohio School Survey Committee is working on the Ohio school code. Its report, it is said, will be the basis for recodifying the school laws.

Here is the present law on school study courses:

"BOARDS OF EDUCATION of county, exempted village, and city school districts shall prescribe a graded course of study for all schools under their control subject to the approval of the superintendent of public instruction. In such graded courses of study there may be included the study of the following subjects:

"(A) Health and physical education, including instruction in the harmful effects of Narcotics and alcoholic beverages;

"(B) First aid, safety, and fire prevention;

"(C) The history of the United States and of Ohio, including a study of the constitutions of the United States and of Ohio;

"(D) The language arts, including reading, spelling, oral and written English, and literature;

"(E) Mathematics;

"(F) Natural science, including instruction in the conservation of natural resources;

"(G) The fine arts, including music, both vocal and instrumental. Every high school shall include in the requirements for graduation from any curriculum one unit of American history and government."

THOSE WHO BELIEVE that the state should insist on minimum standards for courses to be taught, reported advocating that if it is proper to set minimum pay standards for what teachers get, it is also proper to set minimum standards for what the students get.

They say the "may" in the present law makes it mean little. It is hard to enforce, in fact hard to violate. As long as schools "may" teach a list of subjects, it's up to them whether they do it or not.

The fact most schools are teaching the minimum courses isn't the point, the "shall" advocates say. The point is that the state should be as strict in protecting the pupils' right to adequate instruction as it is in protecting teachers' pay right.

The "SHALL" was in the draft advocated by the Ohio School Survey Commission of 1943. But it got changed to "may" in the legislative in-fighting. It's been that way ever since.

It is said that many professional educators generally oppose the strict "shall" and urge the "may" approach. But their opponents say the curriculum law might as well be repealed as to be left optional.

In 1942, a Chinese junk sailed from China to the United States in 86 days with a crew of four.

# Sports Car Races Set for Lockbourne

Plans for the second annual sports car races, to be held Aug. 8 at Lockbourne Air Force Base, 14 miles south of Columbus, have just about been completed. Capt. B. Wahl and Lieut. H. T. McGrath, said Wednesday while they were in Washington C. H., making arrangements for the sale of tickets at reduced rates here.

The two Air Force officers said the 10-race program was slated to start at 9 A. M. and continue through 5:30 P. M.

In addition to the sports car races, they said, there would be an "extensive display" of aircraft, including the latest type of jet bombers and refueling tanker planes.

They expressed confidence that the traffic problems which were such an aggravation at last year's inaugural of the sports car races at Lockbourne would be alleviated this year by a new system of control. The new plan, they said, has been approved by the Ohio Highway Patrol.

# Tariff Hiked On Imported Watch Works

WASHINGTON (AP) — President Eisenhower has raised the tariff on many watches manufactured abroad but a spokesman for U. S. watchmakers says most Americans will still buy Swiss imports.

The President's decision nonetheless was received with pleasure by the domestic industry and criticized from other quarters.

Swiss Minister Charles Bruggman said it dealt a "serious blow" to his country's relations with the United States. He said the step hadn't been anticipated from a friendly government.

Eisenhower announced the first major tariff boost of his administration late yesterday. Effective today except on shipments already in transit and cleared through customs by Aug. 26, it hikes the duty as much as 50 per cent on watches.

The effect will be to raise imported watch price: \$3.50 to \$5.

The Federal Tariff Commission had recommended the increase. It said heavy imports were hurting the American industry.

The White House said raising tariffs also would keep the industry in shape to produce watch movements and other precision devices "necessary for defense."

Paul F. Mickey, vice president of the American Watch Manufacturers Assn., said the tariff increase gives American producers "a chance to survive" in the face of a flood of Swiss watches that has "strangled our industry."

# Changes Likely In Housing Act

New Regulations  
Expected To Be Set

Pending legislation which makes important and extensive changes in the National Housing Act, probably will be enacted and approved in the near future, in the opinion of Forrest P. Smith, a former resident of Washington C. H. who is now director of the FHA office in Columbus.

Smith said he is to be notified by telegram immediately upon the President's signing of the Housing Act of 1954.

Upon receipt of the telegram, he said, the following action must be taken with respect to all pending and new applications for mortgage insurance and existing commitments at that time: no commitments will be issued, reissued, extended, increased or otherwise amended until receipt of the amended rules and regulations and necessary forms and instructions are received from the Washington FHA headquarters.

Smith pointed out, this will cause a brief time lag due to mailing time and the time required to print the material.

AS ADOPTED by the House and Senate conferees and subsequently enacted by the House of Representatives, the Housing Act of 1954 includes amendments which will be beneficial to the participants in the several insurance programs, but Smith warned that it also included provisions imposing important restrictions and limitations. Smith said that the FHA policy will be to permit amendments enabling the participants to obtain the benefits of the new legislation provided, of course, that any amended or extended commitment must contain provisions which will make effective the new restrictions and limitations.

In the section 203 program, for example, all extended, amended, reissued or new commitments

will be subject to requirements with respect to a contract and oath prohibiting rental of the mortgaged property for hotel or transient use and the furnishing of the amount of the FHA appraisal to home purchasers, he said.

Other insurance programs will be subject to similar limitations and multifamily insurance programs will be particularly affected by cost certification requirements.

It should be clear, of course, that existing commitments which are not reissued, extended, increased or otherwise amended represent firm contractual obligations of the administration and will not be affected by the new legislation.

The amendments applicable to section 2 of title I of the National Housing Act will not become effective until the first day after the full calendar month following the approval of the Housing Act of 1954 and, consequently, all instructions with respect to this program will be made known at a later date.

# Big Steel Sees Capacity At 70-75 Pct.

NEW YORK (AP) — Benjamin F. Fairless, board chairman of United States Steel Corp., believes his own company and the steel industry will operate at between 70 and 75 per cent of capacity for the rest of the year.

The outlook for the nation's economy is "good, for peacetime," says Fairless, adding:

"I look for a pickup, so far as operations are concerned, in late August and early September."

His company, greatest steel producer in the world, reported yesterday that its second quarter net income was more than \$4 million higher than net income for the first quarter.

The second quarter figures were \$49,020,738 or \$1.63 a share compared with the first quarter's \$44,830,376 or \$1.48 a share.

In booming 1953 the second quarter was \$55,640,806 or \$1.89 a share.

The first six months of 1954 showed Big Steel with a net income of \$93,851,114, or \$3.11 a share compared with \$105,016,764 or \$3.54 a share in 1953.

U. S. Steel declared its usual quarterly dividend of 75 cents a share on common stock payable Sept. 10 to holders of record Aug. 6. The regular quarterly dividend of \$1.75 on preferred is payable Aug. 20 to holders of Aug. 3.

## Garden Club Members Meet At Church

The regular July meeting of the Pic-Fay Garden Club was held in the basement of the New Holland Methodist Church, with a large attendance of members present.

The brief business session was presided over by Mrs. Wendell Kirk, club president, who read the poem entitled, "Summer Readiness."

Mrs. N. B. Fannin, secretary, gave her report and Mrs. Roy Stewart, treasurer, also gave her report.

It was voted to dispense with the August meeting and the members will spend the day visiting the glass factories at Lancaster and Bremen, and the pottery plant at Crooksville, with plans made to leave at nine o'clock in the morning on Tuesday, August 24.

It was also decided to omit the radio program during the coming week, and a report on the year book was given by the president, Mrs. Kirk.

The meeting was closed with the quotation, "A smile is worth nothing if given away," read by the president.

The hostess committee, made up of Mrs. Kenneth Crabbe, chairman, Mrs. Herbert Louis and Mrs. Joe Louis, served tempting refreshments, and the remainder of the afternoon was spent in making flower arrangements to be exhibited at the Fayette County Fair.

Members present were Mrs. Wendell Kirk, Mrs. Leslie Tarbill, Mrs. Merton Tootle, Mrs. John Gifford, Mrs. George Hott, Mrs. Roy Stewart, Mrs. Irvin Yeoman, Mrs. Omar Clark, Mrs. N. B. Fannin, Mrs. Warren Briggs, Mrs. Floyd James, Mrs. Harry Armstrong, Mrs. Roy Sommers, Mrs. T. C. Gooley, Mrs. Russell Ebert, Mrs. Cranston McQuay and Mrs. Glen Grimes.

## Mrs. Davidson Returns From Extended Tour

Mrs. L. M. Davidson has returned from an extended tour during which she visited thirteen countries and her stops included Madeira Islands, French Morocco, Casablanca, Rabot, Cadiz and Seville, Spain, Estroill, and Lisbon, Portugal, Holland, Hamburg and Bremen, Germany; Copenhagen, Denmark; Stockholm and Gothenburg, Sweden; London, England, and flew from London to Amsterdam.

Going on to Frankfurt, Germany, she was met by relatives, Lieut. Colonel and Mrs. Otis J. Burnett and taken to their home in Wiesbaden, Germany where Col. Burnett is stationed with the United States Air Force.

Mrs. Burnett and Mrs. Davidson toured Switzerland for two weeks and went on to Stressa on Lake Maggiore, Lakes Conn and Constance in the Italian Lake Erie.

Mrs. Davidson traveled through France enroute to her point of embarkation to return to the states and enroute visited distant relatives the Doster Family at their homes in the Black Forest and left from Malsdam, Germany on the View Amsterdam.

In New York City, Mrs. Davidson spent six days as a guest at the

## Underground Garage Problem

### Restoration of Park Part of Agreement

By JOHN F. SEMBROWER  
CHICAGO—The stage is set for engineers building this city's mammoth, 2,350-car underground lakefront parking garage to see if they can put together the pieces of Grant park which they so carefully dismantled, marked for identification, and stored away nearly two years ago.

It will involve an exacting feat of "putting Humpty-Dumpty back on the wall," but the whole project has required ingenious tricks. At one time last year famed Michigan boulevard, the main drag of the Windy City's "front door," was moved a hundred yards east while a portion of the garage was placed under the thoroughfare.

When the six-lane street was returned to its accustomed location, work began on the big excavation under the park. When completed late this year, the garage will surpass Los Angeles' famous underground garage for 2,000 cars beneath Pershing square, and become the world's largest parking facility of its kind.

**TOTAL COST** will be \$8,300,000 financed by a public bond issue, and it is just one of eight big, off-street parking lots and garages Chicago is rushing to bolster its Loop and State street shopping centers against the competition of neighborhood shopping centers springing up in outlying areas.

Cars may be parked in the three underground levels either by the owners themselves or by attendants. Owner parking will be encouraged, and probably will cost 45 cents for the first hour as compared with 65 cents if the attendant places the car.

Elaborate driver surveys were conducted during the planning phase to determine whether owners could maneuver their cars among the myriad columns, and after several test setups were checked, it was found that a 29-foot distance between the pillars is ideal for the amateur operator. **THE ENTRANCES** and exits are in the center of Michigan avenue, and will be radiant heated to prevent icing in cold weather. Lighting techniques used effectively by San Francisco and Los Angeles in pioneering underground garages have been borrowed to get away from that feeling of being "in the cellar."

To calm the opposition stirred by threatened disruption of one of the city's favorite downtown parks, the builders took up 141 large elm trees and kept them for later retransplanting, and with loving care marked the stones of balustrades and foundations and preserved the statues.

Now the trick will be to put them

## Egypt, British Find Accord On Control Of Suez Canal

CAIRO (P)—All Egypt celebrated today at the announcement that the British have agreed to pull their 83,000 troops out of the Suez Canal zone, probably by mid-1956.

Egyptian Prime Minister Gamal Abdel Nasser and British War Minister Antony Head signed a preliminary pact last night, agreeing on principles to be incorporated into a formal treaty. The final accord is expected to be signed in a month or two.

The agreement ended the two

back as nearly like they were before as possible. The engineers say it will be a cinch to do it, because they used the same general methods employed by the archaeologists who some years ago, moved sections of an Egyptian temple complete to the Oriental Institute at the University of Chicago.

A molded cottage cheese salad makes a pretty buffet table addition when it is put in a ring mold and its center is filled with cress or curly chicory.

## Industrialist Cited As Tax Evader

CLEVELAND (P)—A federal grand jury has indicted Thomas A. Glaros, Youngstown industrialist, for evading \$66,000 in income tax payments.

Glaros and his mother, Mrs. Mary A. Glaros, 70, operate the Antonio Glaros & Sons Mill Maintenance Co. in Youngstown.

The four-count indictment charges Glaros with "wilful and intentional scheming to defraud the government."

If convicted, he would be liable for 20 years imprisonment and a \$40,000 fine.

## Kitten Is Awarded Peak Priority

BALTIMORE (P)—A cat-lover in the Central Police Station has some definite ideas about how fellow-employees should treat a stray, dirty white kitten that was given a place to sleep in the station last night.

A hand-lettered sign over a shelf where the kitten slept said: "Anyone who don't like this cat, ask for a transfer. The cat likes it here—if you don't like it, you leave."

\$13,309 for City Streets

### County Gets \$109,271 From 2 State Sources For Road Maintenance

Within the past few days Fayette County has received from the state a total of \$109,271.01 in road (including bridges) maintenance and repair funds, which were distributed by the state from the gasoline tax fund and motor vehicle registration fund.

During the same time Washington C. H. received \$13,309.76 from

the two funds. Of this \$8,436.76 came from the auto license fund and \$4,873. from the gasoline tax fund.

The largest amount, coming from the second distribution of motor vehicle registration fund, was \$37,509.48 and of this amount \$28,212.52 went into the county maintenance and repair fund; \$8,436.75 into the city treasury for maintenance and repair of streets, and the rest to the various municipalities in the county outside of Washington C. H., Jeffersonville, \$381.82; Bloomington, \$321.64 and Milledgeville, \$56.74.

Another \$20,000 came to the county from the gasoline tax fund and each township got \$400 of this amount. The county received the remainder.

From the first distribution of the 1954 auto license fees, \$21,000 came to the county in one check and \$32,981.09 in a second check.

An additional amount of \$7,977.40 came to the county for maintenance and repair work from the 1953 motor vehicle fund.

### Team Starts Trip Canadian Peace

MONTREAL (AP)—Canada sent a five-man delegation flying toward New Delhi today to make arrangements for the Indochina Cease-fire Commission with India and Poland, the supervisory group's other two members.

The Canadian Foreign Office announced last night Prime Minister Louis St. Laurent's government had accepted the Geneva conference's request that it serve on the commission. Canada was the last of the trio to agree.

India, chairman of the commission, announced earlier this week she had invited Poland and Canada to send representatives to New Delhi to make preliminary arrangements for the group.

### Tot Suffocates In Family Auto

DOWNNEY, Calif. (AP)—Mrs. Frances Reichle put her 3-year-old son into the family automobile when she got ready to clean her house yesterday. The temperature was 70 degrees, so she rolled down the car windows to make the boy, Robert, more comfortable.

An hour later, Mrs. Reichle returned to the car. The windows were closed. Apparently the boy had rolled them up. Robert was unconscious on the seat.

At Maywood Hospital he was pronounced dead of suffocation.

Cockroaches are found among the most primitive of fossilized forms of winged insects.

### Firm To Abandon Bomb Target Area

BOSTON (AP)—A technical firm says it is planning to move 50 miles to Fitchburg to "get out of the potential bomb target area of Boston."

Robert G. Dexter of Barkley and Dexter Co. and the Barkley and Dexter Laboratories, Inc., machinery designers and electronics researchers, said yesterday the firm will move to Fitchburg in February.

### Burke Votes 'Yes'

WASHINGTON (AP)—Sen. Burke (D-Ohio) last night voted for the atomic energy bill as amended. Sen. Bricker (R-Ohio) was paired in favor of the measure, but was not present to vote.

## New TB&H Association Secretary Will Assume Duties Here August 16

Mrs. Jan Geisenhof

Mrs. Jan Geisenhof of Lansing, Michigan, recently appointed executive secretary of the Fayette and Highland counties' Tuberculosis and Health Association, has been in Washington C. H. for the past few days. During that period she has been dividing her time between the two counties, renewing acquaintances made during her previous visit a few weeks ago, and making new contacts and friends.

Mrs. Geisenhof, who had been engaged to take up her new duties the first of August, found it necessary to postpone moving to Ohio until the middle of August and has arranged to assume her position on August 16.

While here she announced that she was hopeful that all community groups, in planning their programs for next year, will give some time to consideration of the community problems concerning tuberculosis and that they will give thought to how they, as groups, can contribute aid to their respective county Tuberculosis and Health Associations.

MRS. GEISENHOF will be paid a salary of \$4,200 per year for this two-county district, plus traveling expenses of approximately \$500 annually. This cost is split three ways, the Fayette County Association paying one third, Highland County one third and the Ohio Tuberculosis and Health Association the other third.

### Scout Troop 152 Takes On Project

Scouts of Troop 152 today were carrying out plans to take over the preparation and sale of programs for the Saturday night stock car races at the Speedway west of here. Proceeds from the advertising and sale are to go into the troop treasury.

Plans for the program project were completed at the troop's regular meeting which was held in the public park along Millikan Avenue. A Board of Review also went over the qualifications of several boys headed for first and second class rank advancement.

A Court of Honor is to be held in the near future.

### Will Show Colored Slides On Holy Land

Colored slides of the Holy Land will be shown at the Good Hope Methodist Church Sunday at 8:30 P. M.

Reports indicate that the pictures will be very interesting and will be accompanied by information explanation them.

No admission is to be charged.

## Shriners Here Plan for Event

Five State Conclave To Be In Columbus

Shriners from Washington C. H. and Fayette County today were looking forward to joining other members of this Masonic order in five states in Columbus for the two-day ceremonial and parade when the Great Lakes Shrine Association holds its annual sessions in Ohio's capital city.

George Finley, president of the Washington C. H. Shrine club, said that although the big affair is still more than a month away, it was a foregone conclusion that several Shriners from here would be in Columbus for it.

The two-day meeting will honor Charles E. Nixon of Columbus, a past potentate of Aladdin Temple, of which the Washington C. H. club is an affiliate, and president of the Great Lakes Shrine Association.

A large number of candidates is expected to be initiated into Aladdin Temple during the ceremonial session scheduled for Sept. 18. This will assure Aladdin's holding its position as the eighth largest Shrine Temple in North America.

Four thousand Oriental clad marching men will take part in the spectacular parade scheduled for Saturday evening. According to President Nixon the parade is being held in the evening so that people outside of the Columbus area will be able to attend and enjoy this once-in-a-lifetime event.

Bands, chanters, drum and bugle corps, patrols, Oriental bands and other uniformed units from 22 Shrine Temples in Wisconsin, Illinois, Indiana, Ohio, Michigan and Canada are expected to take part in the two-day celebration.

### Hoover Hometown Plans Celebration

WEST BRANCH, Iowa (AP)—Just about the biggest birthday party in Iowa's history is being planned here next month for Herbert Hoover, former President of the United States.

Hoover will be 80 Aug. 10. On that date, this town where he was born will be host to thousands of Iowans and a large group of distinguished persons invited to help honor Hoover.

SHOWMANSHIP CHAMPIONS of the Junior Fair here are Mary K. Recob (left) and Jo Ann Weldinger. Jo Ann shows the two-year old Jersey with which she won the senior title. Mary, junior titleholder, is shown with her grand champion Guernsey. (Record-Herald photo)

### Priest Known Here Honored By Pope

Three priests of the Columbus diocese, one of them the brother of Father Richard J. Connelly, pastor of St. Colman's Catholic Church here, have been honored by Pope Pius with the title of monsignor. Bishop Ready of Columbus, made the announcement of their elevation.

Monsignor Harry S. Connelly has a number of friends in Washington C. H., where he has come on several occasions since his brother, Father Connelly, has been the pastor of St. Colman's Church.

Father Connelly, incidentally, learned of his brother's honor while en route home from Los Angeles, where he had been re-elected the national chaplain of the Elks Lodge.

Monsignor Connelly has been pastor of St. Joseph's Cathedral in Columbus since September of 1950. Before that he was the administrator of Holy Rosary Church in Columbus for a year.

Prior to his appointment to Holy Rosary, Monsignor Connelly was a professor at St. Charles Seminary

for 10 years following his ordination in 1938. He also has served as director of Lay Retreats and chaplain of the Shrine of St. Theresa.

Msgr. Connelly is a native of Newark and completed his studies for the priesthood at St. Mary's Seminary in Norwood.

Other priests of the diocese honored by the Pope were Msgr. Harold J. O'Donnell of Grove City, and Msgr. Willis E. Kappes, diocesan of charities.

Although accurate statistics have not been kept, officials believe that cobra bites are responsible for several thousand deaths a year in India.

### Freedom Village To Be Dismantled

SEOUL (AP)—Freedom Village, the first stop for nearly 5,000 United Nations prisoners of war repatriated last year, soon will disappear from the Korean scene.

The 8th Army yesterday ordered dismantling of the huge warehouse building used to process the 4,909 ex-POWs in the 33-day repatriation which started last August at Munsan.

The 84th Engineer Combat Battalion, the same unit which built the historic village, has been given the job of tearing it down.

### High Court Gets School Squabble

COLUMBUS (AP)—William C. Paul of Ironton, asked the Ohio Supreme Court today to declare him superintendent of Lawrence County schools.

Paul filed quo warranto action asking W. Donald Russell, also of Ironton, to show by what right he holds the position. Paul's counsel claims Russell usurped the office and holds it illegally.

The court gave Russell 30 days from Aug. 9 to reply.

Paul said the Lawrence County school board unanimously voted last June 26 to hire him as superintendent between last July 1 and July 31, 1955, for \$15,000 a year.

A previous board of education

contracted on Nov. 30, 1953, to hire Russell between Dec. 1, 1953, and July 31, 1958, for \$6,000 annually.

### U. S. Group OK'd

COLUMBUS (AP)—The Ohio Racing Commission says it strongly approves a proposal by Chairman Everett L. Jordan of the Illinois Harness Racing Commission to form a national association of harness racing commissioners.

# Three Spills, None Serious, Mar First Day of Fair Racing

## Will Romola Wins Stake For 2-Year-Old Pacers

A crowd that nearly filled the old grandstand saw Will Romola, a bay colt by Wilmington, win the \$1,000 stake for 2-year-old pacers and feature of the opening day's program of harness horse racing at the Fayette County Fair in the good time of 2:10 for both dashes without being pressed.

And he did it in spite of the first of three spills that marred the afternoon's racing. As the field of nine youngsters was going into the first turn, Lite Vonian, driven by E. Boyer, on the rail just behind the leaders, and Our Con, driven by C. Snook, tangled and went down in a heap. Both drivers were thrown clear and neither colt was seriously hurt.

Lite Vonian, owned by G. D. Baker's Belle Aire Farm here, kicked himself free of the sulky and jumped the fence to the centerfield where he continued to kick and buck-jump until he got rid of the dangling harness. He did not come back for the second dash, but Our Con did, apparently little the worse for his experience.

**WILL ROMOLA** was easily the outstanding performer of the afternoon. Although only a two-year-old, his time for the mile was bested only once in the 12 dashes—and that was by only a fifth of a second and by an aged horse, Eddie Castle, a 25 class pacer.

By odd coincidence, the Record-Herald trophy was presented to Wayne Galvin of Lima, the owner of Will Romola and president of the company that publishes the Record-Herald, by Paul Rodenfels, his brother-in-law and publisher of the Record-Herald.

Right in line with pre-Fair predictions, there were so many entries in two of the Wednesday races that they had to be raced in two divisions—one was the 30 class trot and the other was the 25 class pace, both of them overnight events.

Every one of the six two-dash races had a track-filling field of starters. The smallest field one of seven horses for the second division of the 25 class pace.

Because of the six races (12 separate dashes) on the program and the three spills, the last race was not finished until after 7 o'clock, more than five hours after the first race went away.

**ALTHOUGH** there were three spills involving five horses and five drivers, none was seriously hurt.

The first accident came in the first dash of the afternoon when Lite Vonian and Our Con collided on the second.

The second, which was as freakish as the seventh dash (first dash of the two-year-old trot), N. n. a Peck, driven by D. Moore, made a break and was pulled to the outside and while being pulled up,

her feet flew out from under her and she floundered over the outside fence onto the top of a car parked there. Just what happened, is still obscure, partly because it happened so fast. The filly was scuffed up, but not believed to be seriously injured.

The last wreck came in the last dash of the day when Black Velvet was in front with E. Boyer driving and Starlac, driven by M. McConaughy, coming behind on the rail, tangled on the first turn and piled up. Neither horses nor drivers was seriously hurt.

Although favorites came down with unusual regularity, there were four long shots to put some spice in the mutual betting.

**THE LONGEST** price of the day was on Kelly Dillard to place in the second dash of the second division of the 25 class pace. The brown gelding, driven by Ben Keller of Mt. Sterling, paid \$22.20 when he finished second behind Eddie Castle, the favorite and winner of the first dash. This was the dash in which Black Velvet and Starlac went down in a tangle and did not finish.

Bitucote, owned by the Belle Aire Farm here, paid \$22 to win the first dash of the first division of the 25 class pace. He also paid the juicy place price of \$20 but plummeted to \$3.20 to show.

Jerry K. R., driven by V. Phillips, paid \$16.80, \$13.60 and \$2.80 across the board when he won the first dash of the first division of the 30 class trot, but the crowd apparently was unconvinced because he paid \$8.20, \$2.80 and \$2.20 when he came back to win the second dash.

The only other long price of the afternoon was paid on Audrey Kuno, driven by Miller, when she won the second dash of the second division of the 30 class trot.

She went to the front and withstood a stiff challenge by Game Lady, driven by McKinley Kirk, through the stretch to win by half a length and paid her backers \$14.40, 2.60 and 2.20 across the board.

Game Lady had won first dash without much trouble and was backed down to odd-on favoritism for the second dash; she had paid only \$3.60 to win the first dash.

Virgil Phillips took the driving honors for the day when he handled the reins on the winners of four of the 12 dashes. He drove Jerry K. R. to win both ends of the 30 class trot and Jack Hawk to win both dashes of the two-year-old trot.

With 12 mile dashes during the afternoon, the crowd got a sample of nearly everything in the way of harness horse racing—from three spills to exciting photo finishes.

WAYNE GALVIN (LEFT) OF LIMA, owner of Will Romola, winner of the stake for two-year-old pacers at the Fair Wednesday, is presented the Record-Herald trophy by his brother-in-law, Paul Rodenfels, publisher of the Record-Herald. By odd coincidence, Galvin is president of the company that publishes the newspaper. Will Romola turned both miles in 2:10 to win easily. Denny Moore drove the colt. Mrs. Galvin took part in the presentation as an interested observer. (Record-Herald photo)

## New Rickey Formula Gives Secret To Winning Flags

**NEW YORK** (AP)—Branch Rickey, who has been coming up with ideas since he started in baseball a half-century ago, has a brand new one for the players and fans to mull over.

The 70-year-old general manager of the Pittsburgh Pirates has reduced to a mathematical formula the answer to why pennant winning teams of the past 35 years have been successful.

"The formula is so revealing and

unrefutable," he says in a story in Life magazine, "that it has compelled me to put different values on some of my oldest and cherished memories."

For example he names his 25 top hitters and 10 best pitchers and the results are bound to cause controversy.

Babe Ruth is the No. 1 hitter and Carl Hubbell the best pitcher. Ty Cobb, who was regarded by many experts as the greatest hitter of all time, is only No. 23, and Hubbell is placed above the likes of Grover Cleveland Alexander, Lefty Grove and Dizzy Dean.

In the hitting department, George Sisler, Bill Terry and Paul Waner, all of whom were over the .400 mark at least once in their careers, are not listed in the top 25.

The formula works on the basis that the team with the widest plus margin in scoring runs as compared to the giving up of runs usually wins the pennant. Rickey says it has proved correct 96.2 per cent of the time in the last 20 years.

It deals solely with offense, with the stress on power. He scoffs at fielding averages, and takes these three basic ingredients: 1. On base average. 2. Extra base power. 3. Clutch hitting combined with speed and ability to take the extra base.

Under his ratings, Rickey rates Ted Williams second to Ruth followed, in order, by Jimmy Fox, Rogers Hornsby, Hank Greenberg, Ralph Kiner, Stan Musial, Joe DiMaggio and Mel Ott.

In rating the pitchers, Rickey admits he has not been able to figure a better method than the present one of earned run averages—the number of runs, exclusive of those charged because of errors, that are scored by a pitcher.

**Johnson Trips Jones In Bout**  
**NEW YORK** (AP)—George Johnson, the unranked Trenton, N. J., middleweight, is back in business again after his upset victory over sluggish Bobby Jones, the No. 5 boy in the division.

Jones hasn't won a fight since he spurned an alleged \$15,000 bribe offer before his June 11 bout with Joe Giardello.

## Circleville Women Here For Big Day of Golf on Country Club Course

It was ladies day for sure at the Country Club Wednesday, with 19 guests from Circleville and their 21 Washington C. H. hosts, for a morning of golf and an afternoon of sociability.

Mrs. S. Max Thomas and Mrs. Jess Carter were the co-chairmen; Mrs. Roger Littleton supervised the sending of the invitations. Mrs. Hugh Zimmerman headed the lunch committee and Mrs. Scott Harner took care of the registration.

While the primary purpose of the gathering was to play golf, the event was not in the nature of an inter-city match of invitational tournament.

Mrs. Wayne Shobe turned in a 47 for the low score of the day and Mrs. Virginia Van Camp had the low score for the visitors with a 51.

Among the Circleville golfers, Mrs. Edna Timmons had the next to the lowest gross score.

Lowest net score for Circleville was turned in by Mrs. Betty Treacher, next lowest by Miss Diana Mason and third lowest by

Mrs. Edith Gordon. Mrs. Marian Barnhart had the fewest putts among the Circleville golfers and Mrs. Bentice Senti was next.

**AMONG THE** Washington C. H. golfers, Mrs. Charles Buxton was second for the low gross score with a 51, behind Mrs. Shobe with a 47.

The low net score was turned in by Mrs. Mac Wilson, second low by Mrs. Ralph Bray and four tied for third place honors—Mrs. John Petty, Mrs. Paul Pennington, Mrs. Marvin Roszmann and Mrs. Bob Link.

The fewest putts were taken by Mrs. James Martin and second lowest by Mrs. Mary Sparks. Here are the scores turned in for the nine holes of play:

Mrs. Ruth Athey 54; Mrs. Betty Trecker 59; Miss Diana Mason 53; Mrs. Peg Mason 58; Mrs. Edith Gordon 55; Mrs. Marian Barnhart 63; Mrs. Mabel Tootle 61; Mrs. Virgie Van Camp 51; Mrs. Alma Crites 64; Mrs. Mary Goodchild 60; Mrs. Martha Dowler 60; Mrs. Edna Timmons 53; Mrs. Ellen Powell 57; Mrs. Virginia Marshall 67; Mrs. Hester Weldon 57; Miss Jane Watt 87; Miss Margie Weldon 85; Miss Virginia Carter 73; Mrs. Merle Boyle 69; Mrs. Bill Junk 56; Mrs. Dick Hankins 57; Mrs. Wayne Shobe 51; Mrs. Charles Buxton 51; Mrs. Dwight Coffman 61; Mrs. James Martin 54; Mrs. John Petty 54; Mrs. J. E. Dabe 60; Mrs. Sam Parrett 62; Mrs. Ralph Bray 55; Mrs. Bill McLean 57; Mrs. Mary Sparks 65; Mrs. Mac Wilson 63; Mrs. Scott Harner 75; Mrs. Roger Littleton 67; Mrs. C. G. Hayes 74; Mrs. Paul Pennington 65; Mrs. Elmer Reed 66; Mrs. Hugh Zimmerman 64; Mrs. William Wead 59; Mrs. Mary Gillespie 58; Mrs. Bob Link 66 and Mrs. Marvin Roszmann 58.

## Rocky May Sign For Ezz Match

**NEW YORK** (AP)—Rocky Marciano is in town today for a physical exam and a conference that probably will result in a Sept. 16 Yankee Stadium rematch with ex-champ Ezzard Charles.

The heavyweight champion has been vacationing at Cape Cod and Grossinger, N. Y., since he won a unanimous decision over Charles in a rousing 15-round bout at the Stadium, June 17. Charles fought a courageous battle but was well battered at the final bell.

Jim Bagby, who helped pitch the Cleveland Indians to the 1920 world championship of baseball, died yesterday. He won 31 games and lost 12 for the Indians in 1920 and in the World Series against Brooklyn became the first pitcher ever to hit a home run.

## Cleveland '9' Wins Another By Single Run

**CLEVELAND** (AP)—Cleveland clings to a two-and-a-half-game lead in the American League today on the strength of one big run, a margin responsible for many of the Indians' successes this season.

It came last night as the Indians capitalized on five hits and toppled Boston, 2-1, though the Red Sox managed to register 11 hits against the Tribe.

The victory was Cleveland's 21st this season by one run, and only eight games have been lost by the same edge.

Last season, the Indians won 23 games by one run and were defeated by the same amount in 16 games.

The Indians' latest triumph was their second in a row and 15th of the season against the Red Sox, who have won one and tied twice.

The second spot New York Yankees kept pace in the pennant race by overpowering Chicago, 7-5, on a ninth-inning three-run homer by Mickey Mantle.

Cleveland pitcher Early Wynn posted his 14th victory, sharing the league high mark with Chicago's Virgil Trucks. With two months to go this season, Wynn is only three victories short of his 1953 mark.

Burly Early has yielded 25 hits in the last 18 innings he has pitched, but only three runs have been scored against him and he has issued only three walks during that period. Two of the three walks were intentional.

The Tribe's two-run tally came in the sixth inning, when Al Rosen smacked a long double to center field and scored Bob Avila, who had singled; then Rosen entered the winning run himself on a single by Vic Wertz.

## Redlegs Falter In East Again

**PHILADELPHIA** (AP)—It looks as if the Cincinnati Redlegs are in a rut when it comes to invading the East.

On their first trip they fell flat at the start and lost three straight. On their second trip it was exactly the same story.

And a 3-2 beating they took from the Philadelphia Phils last night made it two defeats in a row at the start of this third trip along the Eastern Seaboard.

Extra base hits wrecked the Rhinelanders last night and to add insult to injury the winning pitcher was Herman Wehmeier, the Cincinnati native who was traded away some weeks ago.

Don Drebus, former Ashland College and Ashland High School football, track and basketball star, has been named assistant coach of Upper Sandusky High School. He will coach all freshman teams.

# Old 'Anvil Jaw' Provides Fishing Thrills Up North

DETROIT—Anglers who come "up north" for their favorite sport quickly find that old "anvil jaw" is a first class tackle wrecker and about as savage as fish become. He is the northern pike and not only will he chew holes through a good many fishing plugs each year, but does the same thing to plenty of fish.

So greedy is this voracious rascal, it is estimated that each day the northern pike will average one-fifth its own weight in consumption of other fish. This characteristic alone has provided fishermen with countless thrilling experiences.

It will perform in puzzling fashion. One day your rod will nearly be snatched from your hand as this roughneck slams into your lure. Again, you will feel only a gentle tug as it engulfs your lure and allows itself to be led easily toward the boat. You think you have hold of a small one until you look down and see a mouthful of teeth and two cruel eyes looking back at you—then—pow! — dynamite goes off and you are tied to a piscatorial powerhouse. Each time you hook a northern pike, it is you and

the fish going 'round and 'round, the victor uncertain.

Some fishermen cuss it, others bless it. Cussed or blessed, the world of fishing thrills would be considerably smaller were it not for the northern pike.

Depending upon latitude, the northern pike does its courting in the spring from March to June. Shallow marsh waters are favorite honeycomb grounds. Females weighing 100 pounds may produce some 100,000 eggs. The eggs are not guarded but simply broadcast upon the bottom. Natural mortality and cannibalism from other fish leave less than one per cent fingerling production. Then the little northern pikes start eating each other until finally comparatively few are left from the original 100,000 eggs.

Northern pike is widely distributed throughout the cold fresh waters of the world. In North America it ranges from Lake Champlain westward, through the Great Lakes region, throughout Canada and northward to Alaska.

A monstrous 46-pound, 2 ounce northern pike scared heck out of Peter DuBuc back in 1940 at Sacandaga Reservoir, New York. DuBuc won the battle and still is world champ.

If it moves, the northern pike will eat it or break teeth trying! Down the hatch go minnows, big fish, frogs, field mice, worms, leeches, ducklings, birds and even young northern pike.

Probably most northern pike are taken while plug casting for bass. Medium action rods, preferably 5 or 5½ feet long, with adequate backbone for setting the hook and holding these heavyweights out of snags are required. Lines should be 15 to 20 pound test, and a 9 to 12 inch wire leader is recommended. Plugs like a river runt are ideal for underwater fishing, and chuggers will do the trick on top. Trolling down deep with diving river runs produces during hot weather.

Spinning tackle should be heavier than usual and many spin fishermen are using light saltwater rods. Spinning reels with 200 yards of 8 pound test monofilament and a wire leader work fine. Spinning

lures like a small river runt have proven most effective.

Fly fishing for northern pike is not common, but where you find an angler proficient at this type you usually find him with fish. A powerful fly rod in 9 foot length, with C level line or HCH taper, and 8 to 10 pound test leader are best. Lures fished slowly do the trick.

When a northern pike follows you lure to the boat, stop casting long enough to give the fish time to return to its former lure. Then cast into the same spot and during your retrieve, suddenly stop your lure and jiggle it. At that precise moment, be sure you have a firm grip on your rod and yourself!

## House Dems Fail to Curtail Ike's Tax Plan

WASHINGTON (AP)—The House has defeated a last-ditch Democratic move to strip a tax cut on dividends from President Eisenhower's tax revision program.

The next move is expected to be final passage of a compromise, 1,000-page revision measure which would reduce the nation's 1954 tax bill an estimated \$1,363,000,000.

Democrats moved to strike from the bill a disputed provision to permit taxpayers to subtract four per cent of their dividend income from the tax payment they otherwise would make.

Their move would have sent the bill back to a House-Senate conference committee, which worked out the compromise version. The Senate still has to act on the compromise.

Democrats have attacked the dividend tax cut for months, charging it is an unjustified special benefit for wealthy persons. The Eisenhower administration and congressional Republicans have defended the move as a step to encourage business investment, bolster the economy and eliminate what they term "double taxation."

The big bill would not change major tax rates but would provide scores of new or bigger tax deductions for depreciation of new plants and equipment, retirement income, medical expenses, child care expenses, dependents who make more than \$600, soil conservation outlays and other items.

## Cop Chief Fined

DEFIANCE (AP)—Police Chief C. D. Nestor has been fined \$10 and costs for failure to yield the right-of-way during a two-car accident here Saturday. The charge was filed by the state highway patrol.

Rice is the basic food of more than half the world's population.

## Fruit and Vegetable Awards Well Distributed at Fair Show

The fruit and vegetable exhibits which shared a tent at the north end of the Merchants Building was about the same as in previous years in size, but the exhibitors agreed that the quality was never better.

The fruit display, a really mouth-watering sight, was dominated again by Miss Clara and Raymond Zimmerman. This brother and sister combination not only carried off 13 first place ribbons, but many second and third place awards as well.

Awards in the vegetable exhibits were more widely distributed.

Results of the judging were:

## Employers Must Report At Once

Little Time Left To Make Remittance

All employers of this community who wish to avoid the payment of delinquency penalties and possible interest charges have until July 31 to send their contribution reports and remittances to the Ohio Bureau of Unemployment Compensation for the second calendar quarter of 1954, Ernest Cornell, BUC Administrator, said today.

Any liable employer who has misplaced his copy of the contribution report form (UCO-2e), which was mailed to him at the end of June for the second quarter of 1954, is asked to write immediately to the Contribution Department of the BUC, 427 Cleveland Avenue, Columbus, and request a duplicate copy.

Cornell explained that quarterly contributions, which go into the state contribution fund from which benefits are paid, are based upon taxable payrolls of all employers who hire three or more workers in any one day.

ALTHOUGH these payments are actually due at the end of each calendar quarter, employers are permitted the next succeeding

month by Ohio law to complete their reports and mail them together with their remittances to the BUC Central Office in Columbus.

Cornell said that any employer who is not sure whether he has had three employees whose wages are taxable under the law should write immediately to the BUC's Contribution Department to determine his liability status.

Under Ohio law, July 1 is set as the "computation date" when individual rates for each employer are calculated under Ohio's experience rating system for the next calendar year. The law provides that all contribution payments due and owing for past quarters will be used in the calculation if paid by July 31 of this year.

The BUC chief also explained that any voluntary contributions made by any employer must be received within 90 days after the computation date or by September 29.
